Projects

[PK Connect](#) (Apr 2024 – May 2024) - Mobile Developer

As a developer for PK Connect, my responsibilities include implementing new features and resolving bugs in the application. I leverage my expertise to enhance the app's functionality and user experience, ensuring seamless performance across various devices. Through collaboration and meticulous problem-solving, I contribute to maintaining PK Connect's reliability and innovation in the mobile app landscape.

Tech Stack: React.js, React Native

Roles & Responsibilities :

1. lead project & maintain team tasks.
 2. implement frontend UI for project requirements.
 3. implement backend API functionality.
 4. fixing bugs & optimizing.
-

[Firstpost](#) (Feb 2022 – March 2024) - FullStack Developer.

I worked as a full-stack developer on the Firstpost News application. My responsibilities included designing and implementing user interfaces, developing server-side logic, and ensuring seamless integration between the front-end and back-end components.

Tech Stack: React.js, Express.js, Redux.js, Next.js, Bootstrap, React Bootstrap, Material UI

Roles & Responsibilities :

1. implement frontend UI for project requirements.
 2. implement backend API functionality.
 3. fixing bugs & optimizing according to the SEO team.
 4. working with an analytics team to analyze website data & performance.
-

[Asset Track For Cloud](#) (Feb 2022 – Nov 2023) - FullStack Developer/Tech Lead.

I was a full-stack developer for the Asset Track For Cloud application, an asset-tracking platform. My role involved designing and developing both the front-end and back-end components.

I hereby declare that the above furnished particulars are true to the best of my knowledge and belief.

Nadim Sheikh

Tech Stack: Laravel, Next.js, Redux, Bootstrap, React Bootstrap, Material UI, TypeScript

Roles & Responsibilities :

1. lead project & maintain team tasks.
 2. db design & manage all backend API's.
 3. implement frontend UI for project requirements.
-

[Sedar Global](#) (Jan 2023 – Oct 2024) - Frontend Developer/Tech Lead.

As a front-end developer for the Sedar Global e-commerce application, I focused on creating intuitive and visually appealing user interfaces. My responsibilities included implementing responsive design principles.

Tech Stack: Next.js, Redux, Bootstrap, React Bootstrap, Material UI, TypeScript

Roles & Responsibilities :

1. fixing bugs & optimizing according to the SEO team.
 2. converting react js code to the next js SSR.
-

[Mulberri](#) (July 2021 – Jan 2022) - Frontend Developer.

As a front-end developer for the Mulberri insurance application, I was responsible for crafting user-friendly and responsive interfaces. I worked closely with the design team to ensure a seamless and intuitive user experience. Additionally, I optimized the application for performance and accessibility.

Tech Stack: Next.js, Redux, Bootstrap, React Bootstrap, Material UI

Roles & Responsibilities :

Tech Stack: Next.js, Redux, Bootstrap, React Bootstrap, Material UI

Roles & Responsibilities :

1. implement frontend UI for project requirements.
 2. fixing bugs & optimizing code.
-

I hereby declare that the above furnished particulars are true to the best of my knowledge and belief.

Nadim Sheikh

ITMAP (Feb 2020 – Jan 2021) - FullStack Developer/Tech Lead.

As a full-stack developer for the Itmap services searching system, I designed and implemented front-end and back-end components. I enabled customers to search for services based on their requirements, ensuring a seamless and efficient user experience. Additionally, I worked on optimizing the system for performance and scalability.

Tech Stack: Node.js, Next.js, Redux, Bootstrap, React Bootstrap, Material UI, TypeScript

Roles & Responsibilities :

1. lead project & maintain team tasks.
 2. db design & manage all backend API's.
 3. implement frontend UI for project requirements.
-

ThurayaRefill (Aug 2020 – Jan 2021) - FullStack Developer/Tech Lead.

As a full-stack developer for the Thuraya satellite phone recharge application, I developed the front-end and back-end components to enable seamless phone recharges and refill unit purchases. I focused on creating a responsive and user-friendly interface for end-users. Additionally, I ensured secure transactions and optimized the application for performance and reliability.

Tech Stack: Laravel, Next.js, Redux, Bootstrap, React Bootstrap, Material UI, TypeScript

Roles & Responsibilities :

1. lead project & maintain team tasks.
 2. db design & manage all backend API's.
 3. implement frontend UI for project requirements.
-

Cuemath (Nov 2019 – Mar 2020) - Frontend Developer.

As a front-end developer for the Cuemath Program, I focused on creating engaging and interactive user interfaces to enhance children's learning experiences. I collaborated with educators and designers to ensure the platform effectively built a strong math foundation through intuitive design. Additionally, I optimized the application for performance and accessibility to support diverse learning needs.

Tech Stack: React.js, Next.js, Redux, Bootstrap, React Bootstrap, Material UI

Roles & Responsibilities :

1. implement frontend UI for project requirements.
 2. fixing bugs & optimizing code.
